Allison Warner and Rob Davidson are ADK Wooden Boats We've been building and restoring traditional wooden Adirondack Guideboats since 1999. We use only traditional materials and methods to replicate and restore these historic craft.

Adirondack Wooden Guide Boats || New Construction ...

Once the ribs are attached, the boat is removed from the side of the builder's jig and placed on top of the jig. A stretcher assembly (below and inside of the boat) is temporarily attached with clamps and then screws to keep the ribs properly placed.

How to Build an AGB Wooden Row Boat | Adirondack Guide Boat

The famous Adirondack guideboat builders were in a class by themselves. They were skillful artists possessing a highly advanced talent in the technical sense of refined carpentry. Each builder kept his own set of patterns which reflected his individuality and clearly defined the lines and style of his craft.

Welcome! This is a blog about the Adirondack guideboat. It includes whatever strikes that author's fancy. For example, you might follow his progress building such an iconic craft, or go along on a 90 mile guideboat race, or learn about some particularly interesting person or happening involving these magnificent wooden boats. Enjoy.

- Adirondack-Guideboat

For over 150 years, the Adirondack Guideboat has been regarded as the highest example of the boat-builder's art. A fishing boat, a hunting boat, a hauling boat; it was a boat a man could carry for a mile or row for a week. Over time, the boats evolved becoming lighter, faster, prettier, and easier to row.

Adirondack Guide Boat Company History | History of our ...

The Adirondack Guideboat is a flat-bottomed boat with a deep 'V'-shaped hull. It is symmetrical side-to-side and end-to-end. Bearing sharp stems on either ends, it is a true double-ender. The hull is lap-straked with a

beveled overlap, making it smooth-skinned. The ribs and stems are sawn from the natural crooks of spruce roots.

Construction of an Adirondack Guideboat | Guideboats.com

Since 1986, in my little shop in the heart of the Adirondacks, I have been building or restoring: Adirondack Goodboats - the unique rowing/sailing/motoring boat that I designed to be an alternative to the guideboat which has everybody in the Adirondacks so mystified, as if it were the only rowing boat that ever was. I've built 73 of these.

Adirondack Guideboats were made for about a century without any epoxy at all - and still are built that way today. But now one can build them in several ways. A strip built AG would be similar to a strip built canoe. You might ask on the Bear Mountain forum, where those are the specialty.

Adirondack Guideboat :: Builders' Forum

"The Adirondack Guideboat: Its Origins, Its Builders and Their Boats is a monumental achievement in watercraft, and maritime history. Sulavik's patient, detailed, and exhaustive research, and the steadfast support of his collaborators, have been combined to produce a reference that will be useful for decades to come.

The Adirondack Guideboat: Its Origin, Its Builders, and ...

At the Adirondack Museum, Carl Hathaway narrates a video of Willard Hanmer building a guideboat. Having been a docent in the boat shop while Allison builds guideboats for many years, I have heard Carl's narration a hundred times if not more. When Willard takes his boat off the jig, Carl intones "the boat is about half done".
