Animal testing, also known as animal experimentation, animal research and in vivo testing, is the use of non-human animals in experiments that seek to control the variables that affect the behavior or biological system under study. This approach can be contrasted with field studies in which animals are observed in their natural environments or habitats.

A daily papyrus newspaper, the Acta Diurna (Daily Events), was distributed in locations in Rome and around the Baths. Its motto was "Publicize And Propagate." Probably the low-grade saitic or taenotic papyrus was used for daily publishing, no doubt one of the reasons that no scraps of the Acta Diurna have ever been found. Whitewashed boards with news of the day were, also, posted in public ...

Since animal care is a 24-hours-per-day, seven-days-per-week responsibility, you likely will need to enlist the help of volunteers, full-time employees, or both. Your organization might focus on rescue efforts in the county where you live, but cross-promotion with similar organizations in surrounding areas can help establish your presence.
