The UCLA Logic Center plans to hold a three-week summer school for undergraduates in 2016, from Sunday July 10 to Saturday July 30. The goal of the summer school is to introduce future mathematicians to central results and techniques from mathematical logic. Courses are very intensive, and reach advanced material, at a graduate level.

UCLA Logic Center Summer School in Logic

Guide to the Logic software: General Information: Assignments are to be done via the UCLA Logic 2000 software program. In my experience with this program, it has always proven to be a very helpful resource for students. This will demand of you, the student, some energy and effort early in the term, to learn your way around the program.

Guide to the Logic software: - Memorial University of ...

In this course, we study the basics of logic. We will study formal, or symbolic logic, concentrating on the use of a symbolic language and the development of a formal system of derivation. In a symbolic language and formal system of derivation, we can make explicit and rigorously study the logically important parts of our language.
