Ecologists agree that habitat destruction is detrimental to the maintenance of biodiversity, but they disagree—often strongly—on the extent to which fragmentation itself is to blame (4, 5). Early hypotheses based on the biogeography of oceanic islands provided a theoretical framework to understand fragmentation's effect on extinction in terrestrial landscapes composed of “islands” of ...

Foreign market entry modes are the ways in which a company can expand its services into a non-domestic market. There are two major types of market entry modes: equity and non-equity. The non-equity modes category includes export and contractual agreements. The equity modes category includes joint ventures and wholly owned subsidiaries. Different entry modes differ in three crucial aspects:
