The Canadian Diet. Canadians usually eat three standard meals a day — breakfast, lunch, and dinner — each of which is quite distinct. Breakfast is eaten first thing in the morning to provide fuel for the day ahead. Unfortunately a lot of Canadians tend to be too rushed in the morning to give the meal much effort, and as a result it tends to be the most widely skipped or half-hearted meal.

Vehicles that operate carburetors or those with fuel injection systems that mix the fuel and air in the throttle body are the ones that saw the most performance gains. Once you get to a multi-port fuel injection system the gains were more minimal since the fuel/air balance was already closer to optimal.
