Here is another resource that has a few hundred subnetting questions. Some are somewhat easy like "What is the last valid host on the subnetwork 172.18.136.0 255.255.255.0?" And it shows the answer of 172.18.139.254. Then it has harder ones like "How many subnets and hosts per subnet can you get from the network 192.168.225.0/28?"
