oxygen, the cardiovascular and respiratory systems must work together. The response of the

respiratory system during exercise was detailed in Chapter 11. This chapter describes the parallel cardiovascular re-sponses to dynamic aerobic activity, static exercise, and dynamic resistance exercise. Cardiovascular Responses to Aerobic Exercise

### **Cardiovascular Responses to Exercise**

We can anatomically divide the nervous system into two major regions: the central nervous system (CNS) is the brain and spinal cord, the peripheral nervous system (PNS) is the nerves (Figure 12.1.1). The brain is contained within the cranial cavity of the skull, and the spinal cord is contained within the vertebral canal of the vertebral column.
