In 2014, the Bureau of Justice Statistics reported that suicides accounted for 7 percent of state prison deaths. Reducing these numbers has become a high priority, says Sharen Barboza, PhD, vice president of mental health at MHM/Centurion, a company that provides health-care services to state correctional systems and large county jails.

Improving mental health for inmates

Through twin studies, researchers have also found that some of the personality traits measured with the PEN model "exhibit significant genetic variance" (Heath, Jardine, Eaves & Martin, 1988). For traits related to extroversion, researchers "found both additive gene action and dominance," while "neuroticism items appeared to show ...
