Basic Concepts of Earned Value Management (EVM)

In 2019, for the first time, ISS supplemented the TSR measure with economic value added (EVA)—a measurement based on accounting data that combined operating profit and a charge for capital—to measure performance. ISS believed that using EVA as a complement to TSR painted a more complete picture of company performance than TSR alone.

Accounting & Management - Harvard Business School

MS-Project's earned value calculations are based on the status date in the Project Information dialog box and are compared against the project baseline. If a status date is not set, MS-Project uses the current system date in the EVA calculations.
