FEELER has capacity for annual production of 8,000 CNC machine tools per year. A company devoted to Research and Development, plus a two stage quality control process, FEELER is poised to become the global leader in high quality machines at competitive prices. A Leading Global Producer PERFORMANCE : 1 877.668.4262 FEELER @ METHODS MACINE.

Feeler Full Product Brochure - CIACPCC

As the Feeler engineer visiting us said "you cut too fast, we no cover there!" while pointing to the door latch switches packed with chips. It does have a chip wash that is commanded by an M-code (and only an M-code!), but you can't use that either as you will empty the coolant tank, starving your tool in the cut.

Methods- Feeler VMC - Page 2

Feeler - CNC Vertical Machining Centers. Feeler vertical machining centers include the cost-effective, entry level FV Series machines for job shop and general machining; the precision, high-speed VM and QM Series machines for high-volume production; the EV and NV Series C-frame and B-1000 double-column machines for die mold applications; the VB Series box-way machines for heavy duty jobs; the ...
