By winter 2003, the company that for years had run ringtones around the competition had been bumped from the top spot in worldwide sales. 1 Motorola found itself stuck in the number-three slot. Their sales had declined because consumers were less than enthusiastic about the uninspired style of Motorola phones, and for many people, style is just as important in picking a cell phone as features.

Financial planning is the task of determining how a business will afford to achieve its strategic goals and objectives. Usually, a company creates a Financial Plan immediately after the vision and objectives have been set. The Financial Plan describes each of the activities, resources, equipment and materials that are needed to achieve these objectives, as well as the timeframes involved.
