Canada Security Guard Practice Questions plus study guide

This session will explore the math needed on the MCAT. As such, you will work through a curated set of questions to familiarize yourself with the range of math skills needed to succeed the MCAT. You will then apply this learning to a Chem/Phys passage. This session will also illustrate the strategy-remediation process.

In Person MCAT Prep Course | Kaplan Test Prep

That's pretty much all there is to "operations on functions" until you get to function composition. Don't let the notation for this topic worry you; it means nothing more than exactly what it says: add, subtract, multiply, or divide; then simplify and evaluate as necessary.
