Fallingwater is a house designed by the architect Frank Lloyd Wright in 1939 in the Laurel Highlands of southwest Pennsylvania, about 70 miles (110 km) southeast of Pittsburgh. The house was built partly over a waterfall on Bear Run in the Mill Run section of Stewart Township, Fayette County, Pennsylvania, located in the Laurel Highlands of the Allegheny Mountains.

An earth shelter, also called an earth house, earth bermed house, or underground house, is a structure (usually a house) with earth against the walls, on the roof, or that is entirely buried underground.. Earth acts as thermal mass, making it easier to maintain a steady indoor air temperature and therefore reduces energy costs for heating or cooling.

The iT House brings together raw industrial aesthetics with the tactics of green design to forge a new home in the sunbaked wilds of California's east. In a living space with floor-to-ceiling windows, a suspended fireplace by Fire Orb provides a shared hearth for friends and family to gather around.

The lodge was a ruin of black granite and bared ribs of rafters, but facing it was a new building, half constructed, the first fruit of Sir Charles's South African gold. Through the gateway we passed into the avenue, where the wheels were again hushed amid the leaves, and the old trees shot their branches in a sombre tunnel over our heads.
