Climatology (from Greek κλίμα, klima, "place, zone"; and -λογία, -logia) or

Download File PDF Holt Science And Technology

climate science is the scientific study of Earth's climate, typically defined as weather conditions averaged over a period of at least 30 years. This modern field of study is regarded as a branch of the atmospheric sciences and a subfield of physical geography, which is one of the Earth sciences.

Wikipedia

environmental science
People in developed nations often warn people in developing nations to stop destroying rain forests. People of developing nations often respond that this is hypocritical, because many of the developed nations became wealthy by deforesting their land and exploiting its resources.
