### How To Make Birch Bark

Birch bark or birchbark is the bark of several Eurasian and North American birch trees of the genus *Betula*.. The strong and water-resistant cardboard-like bark can be easily cut, bent, and sewn, which has made it a valuable building, crafting, and writing material, since pre-historic times. Even today, birch bark remains a popular type of wood for various handicrafts and arts.

Birch trees (genus *Betula*) are flowering medium-sized deciduous trees with thin papery bark and egg-shaped pointed leaves. Birch trees have spectacular fall colors that can be golden yellow, vibrant orange, or fiery red. Common birch trees get their names from the bark's distinctive colors, which can be white, silver, black, gray, or yellow.
