procedure is the same:

**Dip** a small artist's brush into wallpaper-seam adhesive (about \$3 for a 4-oz. tube at paint and wallcovering stores). Spread an even coat of adhesive onto the underside of the exposed seam (photo 1). Then use a wooden seam roller to flatten the seam (photo 2).

Remove the damaged paper by cutting it with a razor blade. Cut off just the area that's ripped or punctured. Press down as you drag the razor blade around the damaged spot, then peel the paper off of the wall. If there's any residue or fuzz left on the wall from the back of the paper, wipe it off with a damp cloth.

How to repair damaged drywall after wallpaper removal First of all, we should start by clearing up a myth: most drywall by itself is not smooth. When first putting up drywall, you screw it in place, tape the seams, and cover them with joint compound. But the paper covering the entire sheet of drywall
