Statistics (STAT) < University of Pennsylvania

Law of Large Numbers. The law of large numbers says that if you take samples of larger and larger size from any population, then the mean of the sample tends to get closer and closer to μ . From the central limit theorem, we know that as n gets larger and larger, the sample means follow a normal distribution. The larger n gets, the smaller the standard deviation gets.

Using the Central Limit Theorem - Introductory Statistics

Introduction to Statistics is a resource for learning and teaching introductory statistics. This work is in the public domain. Therefore, it can be copied and reproduced without limitation. ... The end of chapter problems and the statistical literacy applications are closely tied to the material covered. Modularity rating: 4
