Medical Malpractice Handling Ophthalmology Cases

Physicians leave practices for many reasons, including illness, changes in employment status and personal or family needs. Both the individual ophthalmologist and the practice need to take steps in order to promote continuity of care, prevent allegations of abandonment and ensure that all involved physicians have access to the medical records in the event the care is ever called into question.

When Physicians Leave a Practice: Seven Keys to a Smooth ...

In 2013, a patient went into cardiac arrest and died during open heart surgery. Her estate's malpractice suit, which alleged that the physician's improper handling of pacing wires mid-surgery resulted in the patient's death, led to a jury to award the estate \$5,505,000. Yet, wrong-site surgical errors are not strictly the surgeon's fault.
