Christoph Henning writes a concise history of misreadings of Marx in the 20th century. Focussing on German philosophy from Heidegger to Habermas, he also addresses the influence of Rawls and Neopragmatism, subsequently scrutinizing a previous history of Marx-interpretations that had served as the premises upon which these later works were based.

While Karl Marx's inclusion within the continental canon appears sufficient to justify this grandiose claim, the widespread lack of understanding, if not misunderstanding, within the Anglophone world of continental philosophy and what its practitioners are doing seems to be the real impetus motivating McCumber's writing. To help understand what unifies those working within the tradition of continental philosophy, McCumber sets continental philosophy up against what he calls "traditional ...
