Nest Box Plans | BIRDS in BACKYARDS

His unique "Peterson" nest box, with its signature sloping roof to thwart predators, is credited with helping restore bluebird populations in Minnesota and elsewhere. In the late 1970s, Peterson received an outpouring of letters and requests for nest box plans following a widely read Minneapolis Star-Tribune article on his bluebird work.

How to Build a Bluebird Nest Box | Audubon

In the 1980s, the late Don Helmeke, a Minnesota outdoorsman and conservationist, worked long and thoughtfully on Wood Duck nest box plans. His design has withstood the test of time. Its success at creating a "safe haven" for nesting birds led to its recommendation by both the Minnesota Waterfowl Association and the Wood Duck Society.

How to Build a Wood Duck Nest Box | Audubon

If your nest box is built of stacked & routed wooden sheets or you use paper nest tube liners you can clean it out in winter, remove the cocoons (image left) and store them until spring. At least every couple of years replace all of the tubes and blocks in the nest box with fresh ones. In spring leave the old tubes in an upturned box or bucket ...

A brief guide to bee nest boxes - Bumblebee Conservation Trust

Collect the Eggs Regularly. Make sure to collect eggs regularly, since a box already full of eggs isn't very appealing to a hen looking for a nesting spot. One or two eggs already in the box won't dissuade a hen from adding a few more, but most hens are attracted to an empty nesting box, provided they are clean and attractive. If you get into the habit of collecting eggs twice a day, chances ...

How to Get Hens to Lay Eggs in Nest Boxes

Conventional nest boxes are sold singly, but most metals come in multiples of 2-10 boxes. There is also the "rollaway" nest box. They can be made out of either plastic or metal; however, the metal ones are generally better. A rollaway box has a slightly slanted floor which encourages the egg to "rollaway" from under the hen.

Chicken Nesting Boxes 101 and 13 Best DIY Plans

The benefits of cleaning the box of nesting material can make the box cleaner for birds (sans mites, insects, fecal matter, etc.), allows for safer nest building (if nests are continually built up, they become easier for predators to access from the entrance hole), and refreshes the box in a way that will attract more birds (some species won ...
