Describes how to run the robot with the teach pendant in manual mode, how to create a simple program with the teach pendant, and how to teach the robot. Part 2 Creating a Program on a PC in WINCAPSII Provides instructions for setting up WINCAPSII on a PC, creating and compiling a program, and uploading the compiled program to the robot controller.

BEGINNER'S GUIDE

Offline programming and simulation software allows you to program your robot from a computer rather than on the robot itself. In order to work with this type of software, you will require 3D CAD models of both your parts and fixtures that will be used in the cell (created in a program such as Solidworks®).
