Practice Solving Percent Problems (Amby Duncan-Carr)

Percentage Practice To find the percent of a number, change the percent to a decimal and multiply. Example: What is 30% of 50? Convert the percentage to a decimal by moving the decimal point two places to the left and remove the percent sign: $30\% = .30$ You then multiply $.30 \times 50$ to find the percent: $.30 \times 50 = 15$ 15 is 30% of 50.
