Overlap. There is a great deal of significant overlap between the scope of systems engineering, as described here (in the SEBoK), CMMI (2011), and other resources and the scope of project management, as described in the PMBOK® Guide (PMI 2013), CMMI (2011), and other resources as illustrated in Figure 1.

Relationships between Systems Engineering and Project

...

In project management a project consists of a temporary endeavor undertaken to create a unique product, service or result. Another definition is: a management environment that is created for the purpose of delivering one or more business products according to a specified business case. Projects can also be seen as temporary organization. Project objectives define target status at the end of ...

Project - Wikipedia

Sustainability is a critical business focus, and sustainable project management requires looking at projects in a whole new way. For too long, project managers have worked on their projects as if they were islands, unrelated to organizational strategy and governance and unrelated to the community at large. Putting project management in the correct strategic context helps project managers and ...

Sushil Poudel - Project Management Specialist/Senior ...

Sociotechnical systems (STS) in organizational development is an approach to complex organizational work design that recognizes the interaction between people and technology in workplaces. The term also refers to the interaction between society's complex infrastructures and human behaviour. In this sense, society itself, and most of its substructures, are complex sociotechnical systems.

Sociotechnical system - Wikipedia

The DOST Project Management Information System (DPMIS) is a web-based information system that contains information on DOST program/project proposals, funded programs/projects, and researchers that can be accessed online.
