The store is easily accessible via any web browser or Android device, but you'll need to create a Google Play account and register a credit card before you can download anything. Your card won't be charged, but you might find it off-putting.

Relational Freedom Emergent Properties Of

For example, emergent properties might be determinables which are determined by different lower-level determinates (Macdonald & Macdonald 1986, 1995 and Yablo 1992); types and/or tokens which are proper parts of lower-level types or tokens (Clapp 2001 and Shoemaker 2000 [2001]); or having strictly fewer degrees of freedom than do their bases ...

Emergent Properties (Stanford Encyclopedia of Philosophy)

Interpersonal communication is an exchange of information between two or more people. It is also an area of research that seeks to understand how humans use verbal and nonverbal cues to accomplish a number of personal and relational goals.. Interpersonal communication research addresses at least six categories of inquiry: 1) how humans adjust and adapt their verbal communication and nonverbal ...

John Duns Scotus (1265/66–1308) was one of the most important and influential philosopher-theologians of the High Middle Ages. His brilliantly complex and nuanced thought, which earned him the nickname "the Subtle Doctor," left a mark on discussions of such disparate topics as the semantics of religious language, the problem of universals, divine illumination, and the nature of human ...

To re-examine this dispute, because there is much misunderstanding about what is being disputed, let us ask again what B-theorists mean by calling temporal properties relational. They mean that an event's property of occurring twenty-three minutes in the past, say, is a relation between the event and us, the subject, the speaker.

Time | Internet Encyclopedia of Philosophy

In the philosophy of mind, panpsychism is the view that the mind or a mindlike aspect is a fundamental and ubiquitous feature of reality. It is also described as a theory that "the mind is a fundamental feature of the world which exists throughout the universe." It is one of the oldest philosophical theories, and has been ascribed to philosophers including Thales, Plato, Spinoza, Leibniz ...

This article focuses on the domain of aesthetics and various problems and issues associated with aesthetics. Aesthetics is the branch of philosophy devoted to conceptual and theoretical inquiry into art and aesthetic experience. This article offers first an outline of the structure of philosophical aesthetics as a whole, and then a selective sketch of the development of Anglo-American ...

Philosophical Aesthetics: An Overview - Oxford Handbooks

Relational care is dynamic, iterative, and heterogeneous. Each interaction is unique and adaptive to the patient and the context. One cannot prescribe fixed rules for compassionate care, although certain rules of etiquette can help to personalize care, such as informing patients of one's role and name. 73 , 74 Compassion is about connection ...

The theory possesses the following properties: (1) It is anti-reductionist and anti-eliminativist, and yet, human consciousness is considered as a purely natural (biological) phenomenon. (2) It avoids epiphenomenalism and indicates in which conditions human consciousness has evolutionary advantages, and in which it may even be disadvantageous.
