How to add hour to date T-SQL Add hour. How to add hour to date DATEADD function with getdate, sysdatetime, current_timestamp. Examples. select dateadd(MI, 60, '2018-01-06 18:01:13.777');

How to add hour to date T-SQL

As an example, this simple SQL query is using DATEDIFF () with two timestamps having exactly one hour of difference. And every query gives only one unit. So basically, we must combine or concatenate several queries to get the hours, minutes and seconds within one unique SQL query. Below each query is returning one unit.
