With in 10 seconds of plugging in the washer press the WATER TEMPERATURE and WATER LEVEL keypads at the same time. The MEDIUM WATER LEVEL LED will remain on. If the LED is not on, repeat steps 1 through 3.

### Whirlpool Washer Error Codes - Appliance Repair Information

To determine if the user control and display board is defective, try pressing the buttons on the control panel. If some of the buttons work, but others do not work, the control and display board might need to be replaced. Additionally, if the display is not working, check the power to the user control and display board.
