doesn't, and why? Although data show clear patterns of who is at risk, the occasional outlier points to an enduring mystery By Felice J. Freyer and Tonya ...

Who gets sick with coronavirus, who doesn't, and why ...

Positive thinking doesn't mean that you keep your head in the sand and ignore life's less pleasant situations. Positive thinking just means that you approach unpleasantness in a more positive and productive way. You think the best is going to happen, not the worst. Positive thinking often starts with self-talk.

Positive thinking: Reduce stress by eliminating negative ...

Get rest and stay hydrated. Take over-the-counter medicines, such as acetaminophen, to help you feel better. Stay in touch with your doctor. Call before you get medical care. Be sure to get care if you have trouble breathing, or have any other emergency warning signs, or if you think it is an emergency.
